SUMMARY

Results-driven Software Developer and MCA graduate with hands-on experience in Java, Spring Boot, Python, and full-stack web development. Proven ability to design and deliver end-to-end applications including RESTful APIs, e-commerce platforms, and ML pipelines. Seeking a Software Engineer / Java Developer / Full Stack Developer role to build impactful, scalable solutions.

PROFESSIONAL EXPERIENCE

Software Development Intern | Kodnest Technologies *Bengaluru, Karnataka | Nov 2025 - Present*

- Developed and tested software modules using Java and MySQL through debugging, code reviews, and issue resolution.
- Collaborated with senior developers on SDLC-based workflows, contributing to module design, unit testing, and technical documentation.
- Built and validated HTML/CSS front-end components, improving UI consistency across multiple internal project pages.

AI/ML Intern | Cojective *Mysuru, Karnataka | May 2025 - Jun 2025*

- Developed Python-based AI/ML data processing pipelines to support model training and data preparation workflows.
- Optimized and debugged ML models in an Agile environment, collaborating cross-functionally to deliver data-driven solutions on schedule.

PROJECT EXPERIENCE

ShopKart - Full Stack E-Commerce Web Application GitHub: github.com/Sushravya40/shopkart-ecommerce | Live Demo

Technologies: Java, Spring Boot, Hibernate/JPA, MySQL, React.js, JavaScript, HTML5, CSS3, Razorpay API, REST APIs, JWT Authentication

- Developed a full-stack e-commerce platform with JWT authentication and role-based access control.
- Implemented product management, shopping cart, order processing, and Razorpay payment integration.
- Built RESTful APIs using Spring Boot, Hibernate/JPA, and MySQL.
- Developed a responsive React.js front-end with seamless API integration, delivering a smooth cross-device user experience.

Stress Detection of IT Professionals using Machine Learning GitHub: github.com/Sushravya40/stress-detection | Live Demo

Technologies: Python, Scikit-learn, Pandas, NumPy, Random Forest, AdaBoost, Extra Trees, Stacking Classifier

- Developed a supervised machine learning model achieving ~85% accuracy in predicting stress levels among IT professionals.
- Evaluated Random Forest, AdaBoost, Extra Trees, and Stacking Classifier algorithms to identify the best-performing model.
- Performed end-to-end data preprocessing, feature extraction, model training, and evaluation, delivering personalized stress-management recommendations.

Vegelight - Vegetarian Food Delivery Platform GitHub: github.com/Sushravya40/Vegelight | Live Demo

Technologies: Python, Django, MySQL, Razorpay API

- Built a full-stack food delivery web application with a Django backend, adapting patterns from the ShopKart e-commerce architecture.
- Implemented product browsing, cart management, and checkout with Razorpay payment integration.
- Designed a responsive UI for a smooth ordering experience across devices.

TECHNICAL SKILLS

Programming Languages: Core Java, Python, JavaScript (ES6)
Frontend Technologies: HTML5, CSS3, React.js, Redux
Backend Technologies: Spring Boot, Hibernate/JPA, Django, JDBC, REST APIs
Databases: MySQL, SQL, MongoDB
Testing & Tools: JUnit, Postman, Git, GitHub, Maven, VS Code, Eclipse, IntelliJ IDEA, Cursor
Concepts & Methodologies: OOPs, SDLC, Agile, JWT Auth, RBAC, DSA, Machine Learning, Data Preprocessing
Soft Skills: Problem-Solving, Team Collaboration, Communication, Analytical Thinking

EDUCATION

Master of Computer Applications (MCA) Passout: 2025 | CGPA: 8.3/10
The National Institute of Engineering, Mysore

Bachelor of Computer Applications (BCA) Passout: 2023 | CGPA: 8.4/10
PES Degree College for Science, Arts and Commerce, Mandya

ACHIEVEMENTS AND CERTIFICATIONS

- Design Thinking - NPTEL (IIT Madras): Gained skills in user-centric problem solving, ideation, prototyping, and innovative solution development.
- Full Stack Development - KodNest Technologies: Completed a six-month training program in Java & Python Full Stack Development covering Core Java, Python, SQL, Web Development, Testing, Spring Boot, Hibernate, REST APIs, and React.js.
